

Dockets Management Branch (HFA-305)

Docket No. 98N-1265 8 '99 APR 16 09:58

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Date

COMMENTS: "Inordinate Amount"? - This limitation would compromise my quality of life by restricting my ability to obtain medication my doctor has prescribed and I need. Aren't most of the prescription drugs sent to every state and probably all over the world. Then if this proposal is adopted you must also restrict major drug companies to manufacture only for these state alone, no more shipping out of state, or overseas.

My compounded prescription relieves my symptoms and makes it possible for me to live normally throughout the month. Healthy women are important to quality family life and that is important to the wellbeing of a nation.
